ABOUT US

The firm dedicated solely to Architectural and Structural Engineering consultancy services having a registered head office at Ahmedabad.

Mr. Darshan P shah and Mr Jaymin P Shah, have started the Proprietary Concern in the year 2011 by name M/s. Jaydipdarshan Consultants and later floated to the registered company M/s. Jaydipdarshan Consultants Pvt Ltd. Ahmedabad in the year 2013 standing as Chairman and Managing Director of the company having prominent experience from last 7 years in designing consultancy, execution and as well in construction side for many prestigious projects in across all over India.

Jaydipdarshan Consultants Pvt. Ltd. founded 7 years ago by Mr. Darshan Shah, Mr Jaymin Shah. Hard work, Passionate towards work and ethics help Jaydipdarshan to sustain, Evolve and Grow in Changing Market

Mr. Darshan P shah and Mr Jaymin P Shah has their vast experience in designing and successfully executing of many Small & large Projects for Clients all over India. The company has also launched its 1st branch office at Noida, New Delhi in 2017, for providing its services to the clients. With recent events of infrastructure developments in the Gujarat, for providing our best services to the clients in & around the area.

We have a huge customer base support in central & state government authorities, Corporate Majors, IT Companies, Housing & Real Estate Developers, Industrial, Hotels, Educational Institutions, Mall cum Multiplex Developers and Public Sector Undertakings.

CLIENT ORIENTED COMMITMENT

Share with us your objectives, your vision, schedule and budget and that we can assess the feasibility of your project and get back to you with the foremost economical, efficient design and construction solutions available.

From the initial feasibility studies, through planning and development, through project design and tender stage we will help you deliver a quality solution on time and on budget.

JCPL prides itself in listening to the client's objectives and project goals and then recommending the most efficient construction path and solution oriented assistance.

We are pleased to work with owner clients directly, large government agencies, contractors or in support of other architectural/engineering firms.

Our inherited experience across Indian region over the last 7 years speaks to the true value that

JCPL brings to the project design and construction team. Innovative designs utilizing proven technologies all delivered in a safe fashion, on schedule, on budget, every time.

OUR VISION

Share with us your objectives, your vision, schedule and budget and that we can assess the feasibility of your project and get back to you with the foremost economical, efficient design and construction solutions available

OUR MISSION

Our mission is customer satisfaction, fulfilling all their constructional needs blend with modern technology available and our innovative design and ideas to suit local, social and ecological conditions cost effectively.

WHAT SETS US APART?

A culture based on values

The core values that we strive to employ each day are integrity, honesty, respect, and responsiveness, an attitude of service, technical competency, and sense of urgency.

An integrated project approach

Since most projects begin with the land, we often collaborate and coordinate multiple disciplines in order to optimize project results and increase value to the owner.

A commitment to responsible site development

The principles of sustainability are not new to JCPL. We make choices based on knowledge of the land and sensitivity to a project's environmental impact, which leads to a more successful built environment.

Relationships built on trust, respect, and open exchange

When it comes to our clients, we're looking for a long-term relationship, and we work to establish trust and open communication from the start.

OUR WORK PROCESS

- **INITIAL MEETING**

Initial meeting to understand clients concept for work. we share our ideas. from concept from clients end we start workin on project. and we will start to gather key information such as site survey or previous plan.

- **MAKE PROPOSAL AND CONCEPT DESIGN OPTION FOR PROJECT**

From client's prespective and our ideas we make proposal options for project for next meeting. When the project's parameters are established, we will begin developing concepts. These will be influenced by project scope, budget and your individual requirements.

- **DEVELOPING DESIGN**

Concept design is essentially a range of solutions to the brief. We developed through drawings, floor plan and perspective sketches and computer renderings.

- **SUBMITTING DETAILED DESIGN AND COST BREAK DOWN**

Once resource consent is approved, your project will progress to the detailed design phase. This means we will advance your design to the level of detail that allows a construction contractor to assess the full scope of the project. This will include construction details, materials, components, systems and finishes

DIRECTORS STATEMENT

The key of success is
always grow with
innovation & integrity.

Share with us your objectives, your vision, schedule and budget and that we can assess the feasibility of your project and get back to you with the foremost economical, efficient design and construction solutions available.

From the initial feasibility studies, through planning and development, through project design and tender stage we will help you deliver a quality solution on time and on budget.

JCPL prides itself in listening to the client's objectives and project goals and then recommending the most efficient construction path and solution oriented assistance.

We are pleased to work with owner clients directly, large government agencies, contractors or in support of other architectural/engineering firms.

Our inherited experience across Indian region over the last 7 years speaks to the true value that JCPL brings to the project design and construction team. Innovative designs utilizing proven
